EXTRA SESSION OF LEGISLATURE IS UNLIKELY

Santa Fe Finds No Substantial Basis for Rumor That Governor May Convene Lawmakers.

Special Dispatch to Evening Herald. Santa Fe, N. M., Nov. 4.—That there is no substantial basis for the report that the governor expects soon to convene the legislature in extra session is the opinion of locally well-informed officials about the capital.

Governor McDonald has been absent for several days visiting his cattle ranches in Lincoln county and could not be reached, but so far as is known he has said nothing that could be construed into a declaration that he intended to call an extra session.

It is pointed out that little could be hoped from a session of the legislature at this time since it is generally believed that the lawmakers and the governor expect to meet as they were when the regular session adjourned last spring. And as against the probability of the extra session in the immediate future, it is also argued that the governor is likely to await the outcome of litigation over taxation matters which is either in the supreme court or likely to reach that body for adjudication in the near future.

The decision of District Judge McDonald, which holds in effect that the authorities are powerless under the present law to collect taxes due for 1912 and prior years, which has been appealed to the supreme court, is a matter on which Governor McDonald will doubtless await final decision before calling the lawmakers together.

It is generally admitted, however, that an extra session, were the governor and the lawmakers to meet in November, would do little if any good for the state in completing some of the work left undone by the two regular sessions, but the hope of harmony between the two great branches of the state government is as remote as it was the day the regular session adjourned.

DID CHILD WAKE UP CROSS OR FEVERISH?

Look Mother! If tongue is coated give "California Syrup of Figs" to clean the bowels.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleaning at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ill; give a tea-spoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again.

All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleaning.

Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs" then look and see that it is made by the "California Fig Syrup Company." Counterfeits are being sold here. Don't be fooled!

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different remedies have been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are located.

Probably explains the tremendous success of the well known liquid emulsion, oil of wintergreen, thymol, glycerine, etc., as compounded in B.D.D. lotion.

We have sold other remedies for skin BUTTS, DRUGGISTS, Second and Central.
